A QUICK INSIGHT OUR POWER PORTFOLIO

WORLDWIDE INDEPENDENT POWER

WIP is the leading global industry magazine dedicated to the Independent Power and Cogeneration section. Each month it provides high-quality, incisive and informative editorial, taking you right into the heart of the industry.

UK POWER NEWS

UKPN focuses on power generation products, processes, innovations and technology. Covers all aspects of Onsite Emergency Power and CHP Cogeneration & Renewables within the UK stand-by and Independent Power markets.

MIDDLE EAST POWER

MEP provides both technical and new in-depth market Intelligence on the Middle East Independent Power and Cogeneration sectors. Providing analytical studies on the usage of Genset, Turbines and Electrical transmission systems/switchgear within the region.

INDEPENDENT POWER ASIA

IPA is your direct gateway into the ever-growing power sector of the Asian region. It is the only magazine delivering in depth features, expert analysis and topical and relevant editorial on the Asian Independent Power and Cogeneration markets.

AFRICA POWER NEWS

Africa Power News provides key information about North, Central & South Africa's different electoral power sectors. Africa Power News follows the work harnessing the continent's enormous power potential with new grid developments, geothermal, hydro, wind and solar energy projects.

AMERICAN POWER NEWS

APN is the key magazine reporting & reflecting on power generation issues throughout both the Americas and Caribbean region. Each issue delivers a unique package of topical business, industry and technological news, as well as in-depth and informative articles from industry analysts and experts.

Worldwide Independent Power remains the leading global industry magazine dedicated to the Independent Power and Cogeneration markets. The magazine ensures that you are always kept up-to-date, wherever you are in the world. Its focus is on Independent Power, Cogeneration plants and Onsite Power options which meet growing demands for reliable, clean and secure power supplies. WIP has a vast global readership which is constantly increasing throughout several sectors across the entire power industry.

- Published six times a year
- Extremely high quality readership
- Bonus promotional distribution at major UK exhibitions and conferences
- UK's No.1 publication for the Independent Critical & Standby Power sectors, also for the Genset, CHP/Cogeneration, Renewable energy, standby power, electrical & energy markets.
- Unique tabloid style read by power professionals for power professionals

UK Power News combines insights from an experienced editorial team with world respected contributors, such as Frost & Sullivan, and the latest news from statistical companies and organisations across the industry. It is an essential read for anybody connected within the UK Independent & CHP/Cogen Power Markets. Our experienced team working on the journal is committed to bringing you the key products and issues which affect the UK power market today - and in the future.

Available both in Print & Digital

Job Title:

- Managing Directors
- General Management
- Design Engineers
- Service Engineers
- Maintenance Directors
- Engineers
- Planning Consultants
- Process Engineers
- Research & Development
- Technical Directors
- Production
- Chief Engineers
- Buyer
- Civil Engineer
- Construction Manager
- Finance

OUR TYPICAL READERS

Sectors:

- Construction
- Cogeneration
- Consulting Engineers
- Industrial End-Users
- IPP's
- Service Suppliers & Utilities

Readership throughout the North, Central (inc. the Caribbean) and South American continent, reaching several key specially-targeted industry areas which will advance your business both in terms of increased awareness and creation of new connections.

Africa Power News provides key information for North, Central & South Africa's different electrical power sectors. Africa Power News follows the work harnessing the continent's enormous power potential. The magazine profiles Independent power generator installations as well as extensive power generation & transmission systems and the expansion of mini-grid and off-grid energy solutions.
